Alwar, Rajasthan, India

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate (B.Tech, 2023–2027) with hands-on internship experience in full stack web development, data analytics, and DevOps engineering. Proficient in building MERN stack applications, designing Power BI dashboards, performing exploratory data analysis with Python (Pandas, NumPy, Seaborn), and automating CI/CD pipelines using Docker and Jenkins. Familiar with Agile/Scrum workflows and cloud deployment fundamentals on AWS. Actively seeking internship or entry-level roles in software development, data analytics, or DevOps.

TECHNICAL SKILLS

- **Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+), TypeScript (basic)
- **Backend:** Node.js, Express.js, MongoDB, REST APIs, SQL
- **Data Analytics:** Python, Pandas, NumPy, Matplotlib, Seaborn, Power BI, Microsoft Excel, EDA
- **DevOps & Tools:** Git, GitHub, Docker, Jenkins, CI/CD Pipelines, Postman, Linux (basic)
- **Machine Learning:** Scikit-learn, ML model integration, Mood-based inference systems
- **Cloud & Agile:** AWS (EC2 basics), Cloud deployment concepts, Agile methodology, Scrum

PROFESSIONAL EXPERIENCE

Data Analytics Intern

February 2026 – March 2026

Upflairs Pvt Ltd | Jaipur, Rajasthan

- Cleaned, transformed, and analysed datasets of 10,000+ rows using Python (Pandas, NumPy) and Microsoft Excel, reducing data preparation time by ~35%.
- Built 4+ interactive Power BI dashboards with advanced DAX measures, enabling stakeholders to drill into KPIs and cutting manual reporting effort by 50%.
- Conducted EDA and statistical analysis on real datasets, surfacing 3–5 actionable insights per project to inform business decisions.
- Collaborated with senior analysts to deliver weekly data summaries and visualisation reports using Matplotlib and Seaborn for cross-functional teams.

DevOps Engineer Intern

November 2025 – December 2025

Upflairs Pvt Ltd | Jaipur, Rajasthan

- Designed and implemented CI/CD pipelines using Jenkins, reducing manual deployment steps by ~60% and fully automating build, test, and release workflows.
- Containerised 3+ applications using Docker, eliminating environment mismatch issues across development and production.
- Managed version control with Git across a shared codebase, enforcing branching strategy and streamlining code review cycles.
- Explored cloud deployment on AWS (EC2 basics) and documented infrastructure management best practices for the team.

Full Stack Developer Intern

May 2024 – August 2024

Upflairs Pvt Ltd | Alwar, Rajasthan

- Completed intensive MERN stack training covering HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, and SQL; delivered 3 end-to-end projects.
- Built responsive UIs with React.js and integrated RESTful APIs, applying performance best practices across multiple applications.
- Designed MongoDB schemas and relational database structures for full stack applications in an Agile team environment.

Professional Trainee

September 2024 – December 2024

Vanillakart | Alwar, Rajasthan

- Completed structured Agile project management, digital marketing, and professional communication training.
- Applied SEO fundamentals and social media marketing strategies; contributed to a content plan reaching 1,000+ impressions.
- Developed leadership and cross-functional collaboration skills through team-based project exercises.

Soft Skills Training

May 2026 – June 2026

Insights by Sandeep Jaiman

- Completed a one-month soft skills training program, strengthening communication, interpersonal, and professional development skills.

PROJECTS

Mood-Based Music Recommendation System | [Python](#), [Machine Learning](#), [React.js](#), [Node.js](#), [MongoDB](#)

- Engineered a full stack MERN application that classifies user mood with an ML model and recommends music in real time, achieving ~85% detection accuracy during testing.
- Integrated a Scikit-learn emotion classification model via REST API with a React.js front end and Node.js/MongoDB back end, delivering personalised recommendations.
- GitHub: github.com/vipinkaushik006/Mood-Based-Music-Recommendation-

AI Tools & Tech Analytics Hub [React.js](#), [Node.js](#), [MongoDB](#), [REST API](#)

- Built and deployed a full stack platform aggregating 50+ trending AI tools and technology blogs with categorised listings and secure API integrations.
- Deployed on Vercel with sub-2-second load times — live at: hubai-tools.vercel.app/

Amazon Product Data Analysis | [Python](#), [Pandas](#), [NumPy](#), [Matplotlib](#), [Seaborn](#), [EDA](#)

- Performed end-to-end EDA on a 10,000+ row Amazon product dataset using Pandas and NumPy, uncovering pricing, discount, and customer review patterns.
- Produced 10+ visualisations (Matplotlib, Seaborn) communicating category-level insights to non-technical stakeholders.
- GitHub: github.com/vipinkaushik006/Data_Analytics_Projects

Power BI Dashboards Collection — 6 Production Dashboards | [Power BI](#), [DAX](#), [Data Modeling](#)

- Designed 6 production-grade Power BI dashboards: AI Job Market Analysis, Credit Card Fraud Detection, Dynamic Sales Analytics, Healthcare Data Analysis, Netflix Data Analysis, and Zomato Delivery Performance.
- Applied advanced DAX measures, star-schema data modelling, and visual storytelling, reducing data exploration time for end users by an estimated 40%.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science

Bikaner Technical University (BTU) | Laxmi Devi Institute of Engineering & Technology, Alwar, Rajasthan
2023 – 2027

CERTIFICATIONS

- Introduction to Data Science — Simplilearn
- Full Stack Development — **Upflairs Pvt Ltd**
- Data Analytics - **Upflairs Pvt Ltd**
- DevOps - **Upflairs Pvt Ltd**
- Professional Trainee - **Vanillakart**
- AI Workshop — NxTwave

KEY COMPETENCIES

Data Analysis & Visualisation | Full Stack Web Development | CI/CD & DevOps Automation | Machine Learning Integration | Power BI Dashboard Design | RESTful API Development | Agile & Scrum | Cloud Deployment (AWS) | NumPy & Seaborn | Digital Marketing & SEO | Team Collaboration | Problem Solving
